Shaping the Future in Aviation Transaction Payments...

The Smart Way for You to Manage Your Own International Foreign Currency Transactions

Inside the Nacelle...

AviationForex offers an innovative range of features and benefits that are transforming the global payments landscape.

Payment Manager

Fast and reliable payments to 212 countries. The location for managing all your payment processes. Payment Manager offers all the features needed to fully automate your payments lifecycle. It also helps introduce greater control – to set multiple levels of permissions and authorizations– and to simplify workflows, thereby saving you time and ensuring compliance.

You can make payments virtually anywhere in the world in the currency of your choice. We offer a range of payment options to suit your business, and we can bulk multiple payments to the same destination to cut down on costs. Our banking network gives you Local Payments to 32 countries, which allows you to rest assured that your payment will arrive in full every time at low cost.

AviationForex Account

Your multi-currency e-wallet. Your tracking facility for all things payment-related. The AviationForex Account allows you to view your real-time multi-currency balances and payment history. It's your destination for a full transaction history, including all pending payments, so you can keep up-to-date on progress.

Conversion Manager

Real-time wholesale rates. With Conversion Manager you can convert over 30 currencies at wholesale exchange rates. At the same time, the tool offers full transparency of the mid-market rate so you can see exactly what the conversion is going to cost you. Add in real-time pricing, no hidden fees, and simple billing, and it quickly becomes an essential tool for keeping your business under control.

Account Manager

Manage your accounts. With Account Manager, you can effectively manage all the aspects of your account. Set up access permissions and authorization workflows. Benefit from our unique n-eyes feature which allows as many levels of authorizations as you require.
