

PHENOM 300E

INTRODUCING

KEEPING YOUR BUSINESS AIRBORNE

Founded in 2011, **JET ADVISOR** has started with 1 AOC / 7 aircraft and grew based solely on reputation and recommendations, without any marketing whatsoever.

We currently have 3 offices, main one in Timisoara, one in Bucharest and one in Lisbon, looking to open the fourth one in Dubai and the fifth in Malta. With 42 employees, we service approximately 100 aircraft from around the world, engaged 24 hours a day in global operations.

All our Flight Dispatchers are licensed and trained according to standards set forth by ICAO Doc 7192, approved and audited yearly by several EASA National Aviation Authorities, on site, in our offices.

VALUE Reliable, quality service, because of our tough selection policy

SPEED Fastest reaction time in the industry

EXPERIENCE 20 years of experience, including handling of complex operations, life and death situations and highest possible profile of passengers

VERSATILITY Diverse range of services for any AOC size and preference

AFFORDABILITY Unbeatable price, because of our location and volume

SINCE DAY ONE, WE PLEDGED TO OFFER OUR CLIENTS LIFE-LONG SUPPORT & BESPOKE SOLUTIONS

FLIGHT SUPPORT

Our certified dispatchers are experienced and knowledgeable, and have encountered and navigated various situations throughout their careers - rest assured that you are in good hands.

FLIGHT CONCIERGE

Mainly ex-flight attendants with premium airline experience, they facilitate a seamless experience for passengers and their representatives within a complex and highly technical environment. Our aim is to provide the necessary support while ensuring passengers remain informed and empowered throughout the process.

CREW CONTROL

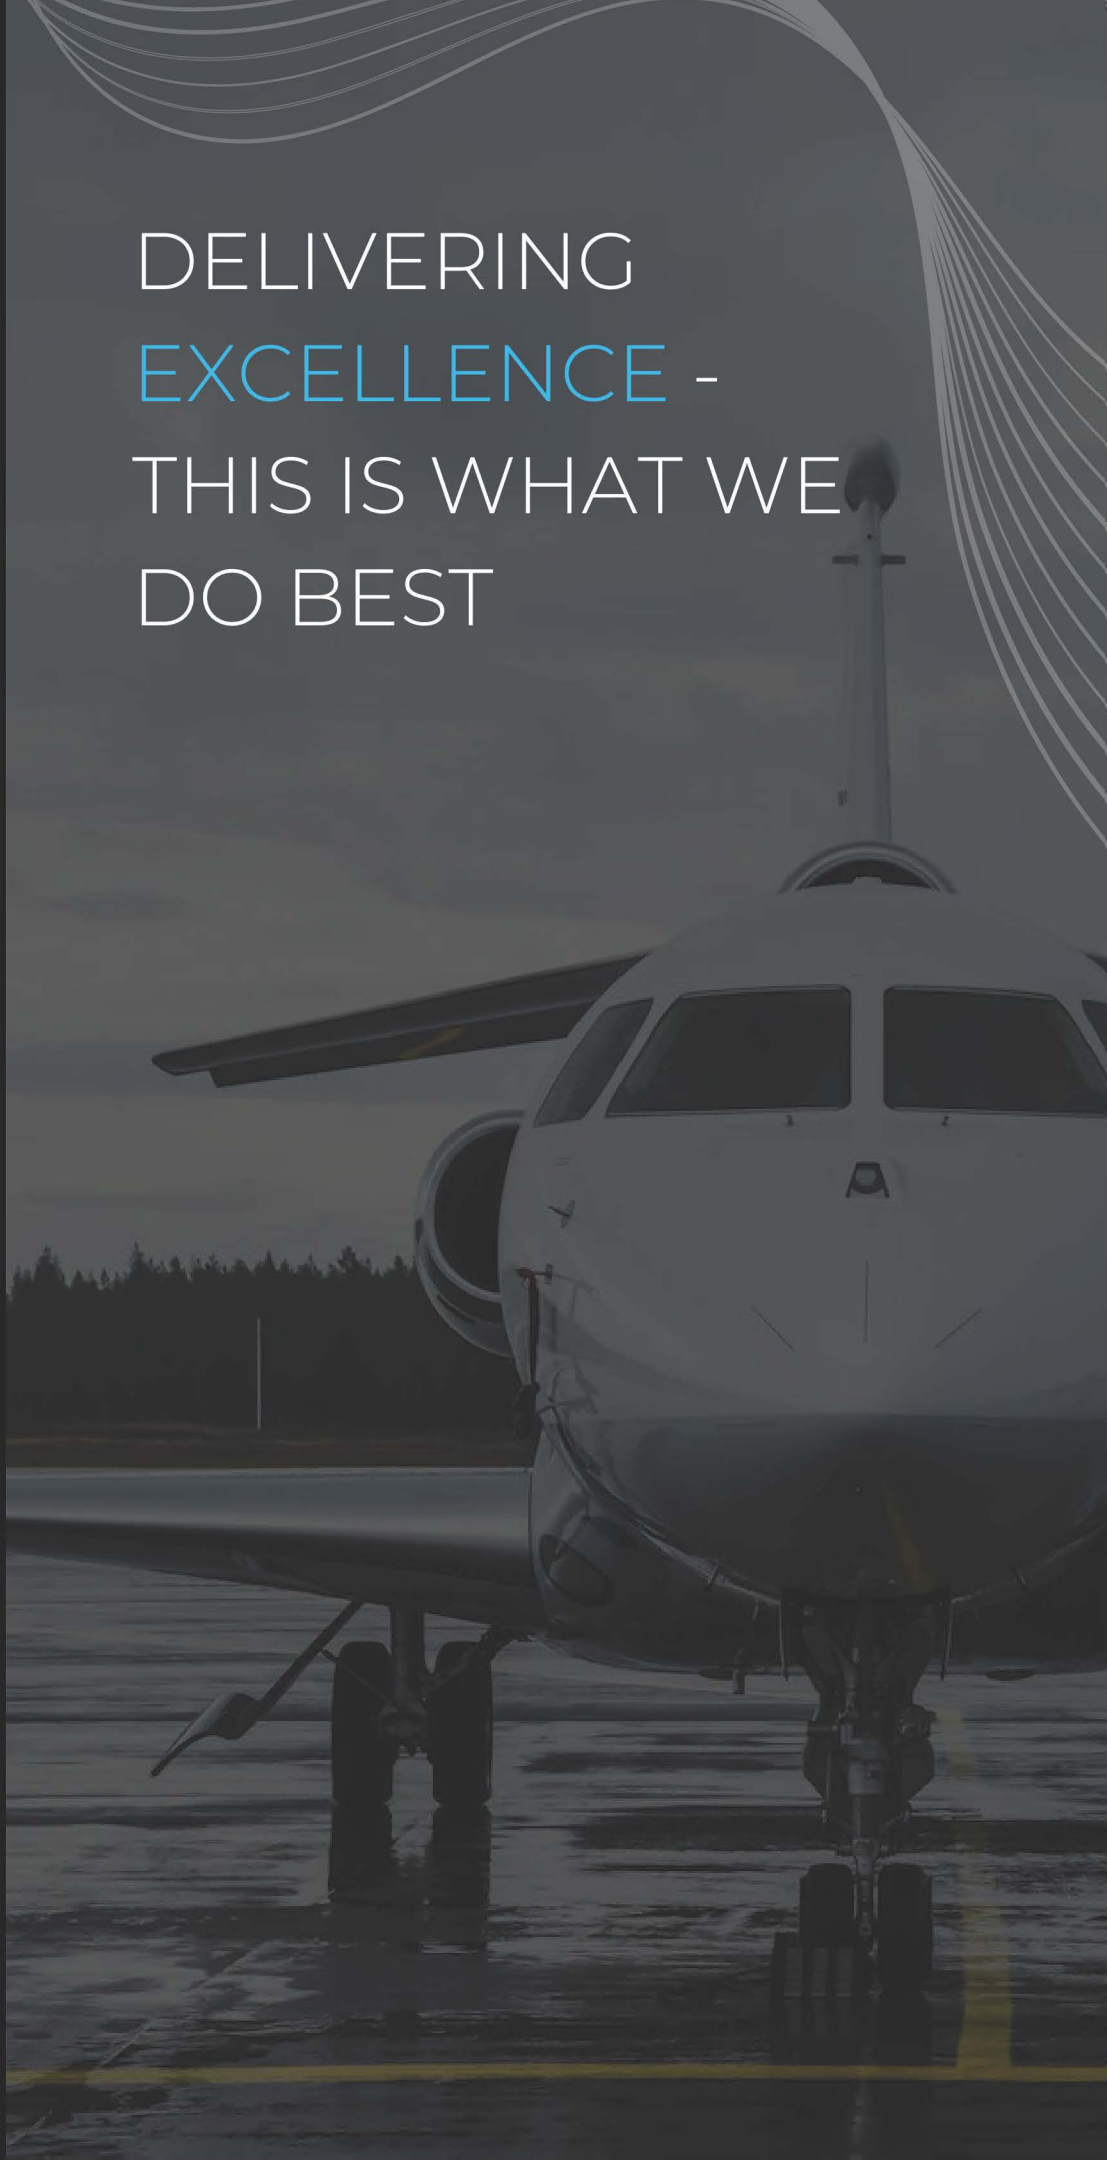

By delegation from NP (Nominated Postholder) Flight Ops, they monitor Flight Time Limitations, find solutions when needed. In addition, they make sure that qualifications are there (medical records, training records, etc) to perform any given mission. Finally, they assist with travel arrangements when required.

PROCUREMENT

Our volume gives us discounts that we can put to work to the advantage of our customers. Where the AOC doesn't have contractual arrangements, we can handle everything through our network (fuel, handling, permits, etc).

HELICOPTER SERVICES

We have handled several helicopter operations, from flights to remote oil rigs in the seaside for operating staff, luxury leisure flights to the mountains, to VIP transfers from/to various areas from/to busy airports for connecting flights.

DELIVERING
EXCELLENCE -
THIS IS WHAT WE
DO BEST

Introducing the Jet Advisor Travel Platform: Your Partner in Corporate Travel

Today, we're excited to unveil the Jet Advisor Travel Platform—crafted to streamline every aspect of corporate travel with ease, security, and exceptional support.

In the world of business travel, efficiency and flexibility are paramount. The Jet Advisor Travel Platform is a comprehensive solution crafted to make your travel planning seamless, reliable, and tailored to your company's unique needs.

Key Benefits at a Glance:

Seamless Booking: Access flights, accommodations, and travel support seamlessly on a single platform. Designed for ease of use, the platform puts everything you need in one place for efficient planning and quick access to important details.

Dedicated 24/7 Support: Our team is here around the clock to provide real-time assistance, helping you manage changes, confirm bookings, and address any travel needs as they arise, ensuring peace of mind wherever you are.

Data Security: With built-in two-factor authentication and top-tier data protection protocols, the platform ensures that sensitive company information is safeguarded every step of the way.

Flexible & Customizable Solutions: Tailor your corporate travel plans to fit specific business needs—from last-minute adjustments to preferred accommodation and travel options, our platform adapts to meet your requirements seamlessly.
